- Billy Jimenez, General Counsel for NM Department of Health (billy.jimenez@state.nm.us)
- NM School Board Members, School Superintendents, School Principals and School Nurses (list of these recipients is in Appendix A at the end of this letter)

RE: NOTICE TO CEASE AND DESIST SCHOOL AND ATHLETICS MASK MANDATES

This letter serves as a formal notice to cease and desist all school and athletics mask mandates immediately. Be advised that the undersigned counsel is prepared to pursue legal action against these mandates, which are in violation of Federal law. We are writing this letter on behalf of numerous parents and students throughout the State of New Mexico.

I. THREAT OF IMMINENT HARM

Your mask mandates requiring school children to wear masks in school and during athletics are putting New Mexico children at threat of imminent harm. New Mexico children are suffering blackouts, vomiting, breathing problems, dizziness, disorientation, nosebleeds, learning problems, and other health problems as a result of your mask mandates.

This corroborates the findings of a German study of 25,930 schoolchildren,¹ which reported that 68% of children had negative health impacts from wearing masks, including:

- Headache (53%)
- Dizziness (26.4%)
- Shortness of breath (29.7%)
- Difficult concentration (50%)
- Nausea (16.6%)
- Tachycardia (rapid heart rate) (5.6%)
- Impaired learning (38%)
- Fainting (2.2%)
- Vomiting (1.9%)
- New onset anxiety and/or nightmares (25%)

Multiple New Mexico children have suffered blackouts as a result of mask wearing. For instance, one New Mexico child who was required to wear a mask during athletics blacked out during a competition; when he regained consciousness, the child vomited, was disoriented, and not able to support his own weight for over 20 minutes.

In recent news coverage of a Rio Rancho student who collapsed while running masked (at a statewide track-meet)², it was reported that blood tests showed the child's carbon dioxide levels to be elevated and his oxygen levels were reduced. At the same track meet, a female student track runner also collapsed. Sally Marquez was apparently present near the finish line and witnessed both of these students' collapse due to mask wearing while engaging in strenuous cardiovascular events.

¹ "Corona child studies "Co-Ki": first results of a Germany-wide register on mouth and nose covering (mask) in children," Schwarz Silke, et al., *Pediatrics Monthly*, February 2021, <https://pubmed.ncbi.nlm.nih.gov/33642617/>

² "Rio Rancho runner collapses during masked cross country competition," KRQE Albuquerque, April 2021. <https://www.krqe.com/sports/local-sports/rio-rancho-runner-collapses-during-masked-cross-country-competition/>

This experience corroborates the expert opinion of Dr. Margareta Griesz-Brisson MD, PhD who is a Consultant Neurologist and Neurophysiologist with a PhD in Pharmacology³. According to Dr. Griesz Brisson, “The reinhalation of our exhaled air will without a doubt create oxygen deficiency and a flooding of carbon dioxide. We know that the human brain is very sensitive to oxygen deprivation... Oxygen deficiency inhibits the development of the brain, and the damage that has taken place as a result cannot be reversed... Consciously and purposely induced oxygen deficiency is an absolutely deliberate health hazard, and an absolute medical contraindication.”

A recent Randomized Clinical Trial study published in the June 2021 *Journal of the American Medical Association: Pediatrics* found that masked children experienced carbon dioxide levels well beyond the acceptable safe limit. The negative effect was exacerbated in younger children. The study concluded, “We suggest that decision-makers weigh the hard evidence produced by these experimental measurements accordingly, which suggest that children should not be forced to wear face masks.”⁴

Furthermore, multiple studies have shown that mask wearing negatively impacts health. A review of 44 studies and 65 publications (that was published in the April 2021 *International Journal of Environmental Research and Public Health*) concluded that “mask-related changes in respiratory physiology can have an adverse effect on the wearer’s blood gases sub-clinically and in some cases also clinically manifest and, therefore, have a negative effect on the basis of all aerobic life, external and internal respiration, with an influence on a wide variety of organ systems and metabolic processes with physical, psychological and social consequences for the individual human being.” The specific negative effects from mask-wearing included increase in blood carbon dioxide, decrease in blood oxygen saturation, increase in heart rate, increase in blood pressure, shortness of breath and difficulty breathing, headache, dizziness, exhaustion, and skin lesions.⁵

Furthermore, New Mexico teachers and learning specialists have reported that masks have serious negative effects on children’s emotional and developmental health, interfere with children’s ability to learn communication and facial expressions, and directly impede learning of

³ “German Neurologist Warns Against Wearing Facemasks: 'Oxygen Deprivation Causes Permanent Neurological Damage,’” Griesz-Brisson, Margareta, Sign of the Times, October 2020. <https://www.sott.net/article/442455-German-Neurologist-Warns-Against-Wearing-Facemasks-Oxygen-Deprivation-Causes-Permanent-Neurological-Damage>

⁴ “Experimental Assessment of Carbon Dioxide Content in Inhaled Air With or Without Face Masks in Healthy Children: A Randomized Clinical Trial.” *JAMA Pediatr.* Published online June 30, 2021. doi:10.1001/jamapediatrics.2021.2659

⁵ “Is a Mask That Covers the Mouth and Nose Free from Undesirable Side Effects in Everyday Use and Free of Potential Hazards?” Kisielinski et al., *International Journal of Environmental Research and Public Health*, April 2021, <https://www.mdpi.com/1660-4601/18/8/4344/htm>

crucial skills such as reading and mathematics. In the above-mentioned review of 44 studies and 65 publications, it was found that ““masks block the foundation of human communication and the exchange of emotions and not only hinder learning but deprive children of the positive effects of smiling, laughing and emotional mimicry.”⁵

II. MASK MANDATES ARE UNNECESSARY AND INEFFECTIVE

School districts around the world and in USA states such as Florida, Texas, South Dakota, and Idaho have demonstrated that mask mandates are not required for safe operation of schools or athletics.^{6,7} Both outdoor transmission and asymptomatic transmission are known to be very rare. Your mask mandates are thus not necessary nor are they effective for containing the spread of COVID-19 in schools and athletics.

Nationally, children have a 99.997% survival rate from COVID-19. In New Mexico, only 0.7% of child COVID-19 cases have resulted in hospitalization. It is clear that children have an extremely low risk of severe illness or death from COVID-19. Teachers who want to receive COVID-19 injections are free to do so. No one, teachers or students, should be mandated to have the injections. There is no scientific basis to continue requiring any children or teachers to wear masks in NM schools or athletics.

III. MASKS DO NOT STOP VIRAL TRANSMISSION

Dozens of real-world studies conducted over the last 100 years have failed to provide evidence that masks have a significant protective effect against respiratory viruses. The studies have often produced results suggesting that there are many circumstances under which the routine wearing of masks actually increases microbial infections either in the users or those around them.

⁶ “‘Our Kids Have Thrived’: Rural Peaster ISD Never Required Masks Or Distancing And Most Students Are On Track Academically,” DFW CBS Local, March 2021, <https://dfw.cbslocal.com/2021/03/08/rural-peaster-isd-texas-masks-distancing-students-academically/>

⁷ “Open Schools, Covid-19, and Child and Teacher Morbidity in Sweden,” Ludvigsson J et al., *New England Journal of Medicine*, February 2021, <https://www.nejm.org/doi/full/10.1056/NEJMc2026670>

For instance, MacIntyre et al 2011, 2013, and 2015^{8,9, 10} evaluated a best-case scenario for cloth mask use, with trained personnel and daily mask washings. These studies involved a total of 4,717 healthcare workers and compared the efficacy of medical masks and N95 masks, as well as double-layered cotton cloth masks with medical masks. The studies included a non-masked control group. It was found that "Cloth masks resulted in significantly higher rates of infection than medical masks, and also performed worse than the [unmasked] control arm."

Bundgaard et al 2020 is the only Randomized Controlled Trial that has examined SARS-CoV-2 infections in masked vs. non-masked civilian populations. 4,862 participants completed the study (2,392 masked; 2,470 non-masked), and the study concluded that there was no statistically significant difference in SARS-CoV-2 infection rates between the masked (1.8%) and non-masked (2.1%) study cohorts.¹¹

IV. MASKS PROMOTE THE GROWTH OF DANGEROUS MICROORGANISMS

NM's school mask mandate, which includes the requirement for children to wear masks during outdoor exercise and sports, specifically goes against World Health Organization guidance, which states, "People should NOT wear masks when exercising, as masks may reduce the ability to breathe comfortably. Sweat can make the mask become wet more quickly which makes it difficult to breathe and promotes the growth of microorganisms."¹²

In a recent analysis by a University of Florida lab, testing of facemasks worn by schoolchildren identified 11 dangerous pathogens on the coverings, including bacteria that cause diphtheria, pneumonia and meningitis.¹³

⁸"A Cluster Randomized Clinical Trial Comparing Fit-Tested and Non-Fit-Tested N95 Respirators to Medical Masks to Prevent Respiratory Virus Infection in Health Care Workers," MacIntyre et al., *Influenza Other Respir Viruses* 5, no. 3 (May 2011): 170-9, 2011, <https://dx.doi.org/10.1111/j.1750-2659.2011.00198.x>.

V. MASK REQUIREMENTS MUST NOT BE TIED TO COVID-19 VACCINATION STATUS

The Governor's recent policy change to allow vaccinated athletes to be unmasked is not enough; all students must be allowed to unmask, regardless of their vaccination status.

The World Health Organization has recently changed its policy to remove recommendations for administering experimental COVID-19 vaccinations for all children 12 and older.¹⁴ As of June 24, 2021, the WHO website says, "More evidence is needed on the use of the different COVID-19 vaccines in children to be able to make general recommendations on vaccinating children against COVID-19."

Furthermore, the CDC has acknowledged that they are seeing increased rates of heart inflammation in young people who take the shot. The CDC website says, "As of June 21, 2021, VAERS has received 616 reports of myocarditis or pericarditis among people ages 30 and younger who received COVID-19 vaccine. Most cases have been reported after mRNA COVID-19 vaccination (Pfizer-BioNTech or Moderna), particularly in male adolescents and young adults."¹⁵

As of June 25, 2021, the CDC VAERS has 13 reported deaths in 12-17 year olds after COVID-19 vaccination.¹⁶ This includes a 13-year-old boy who died in his sleep 2 days after vaccination¹⁷, two 15-year-olds who died of heart failure several days after vaccination,^{18, 19} and a 16-year-old girl who died of pulmonary embolism (blood clots in lungs) nine days after vaccination²⁰.

VI. VIOLATION OF FEDERAL LAW

New Mexico Stands Up! is prepared to pursue legal action against any organizations, schools, or government agencies who continue to mandate masks for children. Masks, like the PCR tests and

¹⁴ "COVID-19 Advice for the Public: Getting Vaccinated," World Health Organization, accessed June 24 2021, <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/covid-19-vaccines/advice>

²⁰ <https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1225942>

the COVID-19 injections, have not gone through full Food and Drug Administration (FDA) approval processes. They are approved for Emergency Use only.²¹

According to FDA 21 U.S. Code § 360bbb–3 “*Authorization for medical products for use in emergencies*,” medical products (including face masks) which have been granted Emergency Use Authorization ***may not be mandated***.²² This provision specifically requires that the recipient be informed of the right to accept or refuse the medical product. Thus, your order mandating face masks violates Federal law.

These mandates expose children to compulsory risk and have already been demonstrated to cause direct harm. ***Organizations, schools, school boards, school nurses, and government officials who impose mask mandates can be held personally liable for any injuries or damages that occur as a result of these policies, which directly violate Federal law.*** This practice must cease or we will take court action to stop it. Dozens of New Mexico parents and teachers are prepared to serve as plaintiffs in this lawsuit.

We demand that you immediately cease and desist from requiring students and athletes to be masked. The attorneys at NM are planning a lawsuit to obtain relief for N.M. students who are suffering from your mandates. We hope you seriously consider the scientific information provided here, realize that masks are not warranted for school children, and rescind the mask mandate so that costly litigation will not be needed. Otherwise, we will seek to hold you each personally liable for any injuries or death that occur to any student as a result of this unnecessary and harmful policy.

Sincerely,

/s/ N. Ana Garner

N. Ana Garner
Lead Attorney for NM Stands Up

APPENDIX A: School Officials Distribution List

In addition to the NM State officials listed at the beginning of this letter, this Cease and Desist letter is being sent to the following local school officials as well. This letter may also be served by parents or concerned citizens of the state to any other local school officials not listed here.
