## RÉSOLUTION OF THE NAABIK'ÍYÁTI' STANDING COMMITTEE 25th NAVAJO NATION COUNCIL -- First Year, 2023

AN ACTION RELATING TO RESOURCES AND DEVELOPMENT AND NAABIK'ÍYÁTI' COMMITTEES; RESCINDING RESOLUTION NABIJA-05-20 "OPPOSING H.R. 2181 AND S. 1079, 'THE CHACO HERITAGE AREA PROTECTION ACT OF 2019', UNTIL SUCH TIME AS THE BUFFER ZONE SURROUNDING CHACO CULTURAL NATIONAL HISTORICAL PARK IS REDUCED TO FIVE (5) MILES;" OPPOSING THE WITHDRAWAL OF APPROXIMATELY 351,000 ACRES OF PUBLIC LAND SURROUNDING CHACO CANYON

#### WHEREAS:

- A. The Navajo Nation established the Resources and Development Committee as a Navajo Nation Council standing committee and as such empowered the Resources and Development Committee with authority to establish Navajo Nation policy with respect to the optimum utilization of all Navajo Nation resources and to protect the rights, interests, sacred sites and freedoms of the Navajo Nation and People to such resources, now and for future generations. 2 N.N.C. §§ 500(A) and (C)(1).
- B. The Navajo Nation established the Naabik'íyáti' Committee as a Navajo Nation Council standing committee and as such empowered Naabik'íyáti' Committee to coordinate all federal programs and to assist and coordinate all requests for information, appearances and testimony relating to federal legislation impacting the Navajo Nation. 2 N.N.C. §§ 700(A), 701(A)(4), 701(A)(6).
- C. The Navajo Nation has a government-to-government relationship with the United States of America, Treaty of 1868, Aug. 12, 1868, 15 Stat. 667.
- D. The Navajo Nation Council approved Naabik'íyáti' Committee Resolution NABIJA-05-20, titled, "OPPOSING H.R. 2181 AND S. 1079, 'THE CHACO HERITAGE AREA PROTECTION ACT OF 2019', UNTIL SUCH TIME AS THE BUFFER ZONE SURROUNDING CHACO CULTURAL NATIONAL HISTORICAL PARK IS REDUCED TO FIVE (5) MILES" on January 23, 2020, which is attached as Exhibit 1.
- E. The purpose of Resolution NABIJA-05-20 was to oppose federal legislation proposing a ten-mile buffer zone around Chaco Canyon and to offer a five-mile buffer zone as an alternative.
- F. While the 24<sup>th</sup> Navajo Nation Council sought to minimize negative economic impacts with a smaller buffer zone, the 25<sup>th</sup> Navajo Nation Council is concerned that any buffer zone, in addition

to the withdrawal of public land, will have a detrimental impact to Navajo Nation allottees by preventing the development of new oil and gas resources on allotments as a result of the allotments being landlocked.

- G. The Navajo Nation Chapters of Pueblo Pintado, Whitehorse Lake, Lake Valley, and Nageezi (the "Chapters") have expressed opposition to land withdrawal and the imposition of any buffer zone around Chaco Canyon.
- H. The Chapters submitted resolutions in opposition to a buffer zone as follows:
  - 1. Resolution of Pueblo Pintado, PPC-02-2023-022, attached as Exhibit 2:
  - Resolution of Whitehorse Lake, WHLC-2-22-033, attached as Exhibit 3;
  - 3. Resolution of Lake Valley, LVC-FEB12-029, attached as Exhibit 4; and
  - 4. Resolution of Nageezi, NC-23-032, attached as Exhibit 5.
- I. The Chapters recognize the detrimental economic impact to the Navajo allottees should a buffer zone of any size be imposed around Chaco Canyon. If a buffer zone is adopted, the Navajo allottees who rely on the income realized from oil and gas royalties will be pushed into greater poverty.
- J. Pueblo Pintado and Nageezi Chapters also challenge the need for a buffer zone based on the current fence line that serves as a boundary to safeguard Chaco Canyon, as indicated in Exhibits 2 and 5, respectively.
- K. The 25<sup>th</sup> Navajo Nation Council wishes to support the Navajo Nation members who hold allotted land in the area around Chaco Canyon and allow those members to maximize their economic interests.

#### NOW THEREFORE, BE IT RESOLVED:

A. The Navajo Nation rescinds Resolution NABIJA-05-23 titled, "OPPOSING H.R. 2181 AND S. 1079, 'THE CHACO HERITAGE AREA PROTECTION ACT OF 2019', UNTIL SUCH TIME AS THE BUFFER ZONE SURROUNDING CHACO CULTURAL NATIONAL HISTORICAL PARK IS REDUCED TO FIVE (5) MILES."

- B. The Navajo Nation opposes the United States intent of withdrawing approximately 351,000 acres around Chaco Canyon,
- C. The Navajo Nation does not support a buffer zone around Chaco Canyon.

#### CERTIFICATION

I, hereby certify that the foregoing resolution was duly considered by the Naabik'íyáti' Committee of the 25<sup>th</sup> Navajo Nation Council at a duly called meeting in Window Rock, Navajo Nation (Arizona), at which a quorum was present and that the same was passed by a vote of 15 in Favor, and 01 Opposed, on this 27<sup>th</sup> day of April 2023.

# RESOLUTION OF THE NAABIK'ÍYÁTI' STANDING COMMITTEE OF THE 24th NAVAJO NATION COUNCIL -- Second Year, 2020

AN ACTION RELATING TO RESOURCES AND DEVELOPMENT AND NAABIK'ÍYÁTI' COMMITTEES; OPPOSING H.R. 2181 AND S. 1079, "THE CHACO HERITAGE AREA PROTECTION ACT OF 2019", UNTIL SUCH TIME AS THE BUFFER ZONE SURROUNDING CHACO CULTURAL NATIONAL HISTORICAL PARK IS REDUCED TO FIVE (5) MILES

#### WHEREAS:

- A. The Navajo Nation established the Resources and Development Committee as a Navajo Nation Council standing committee and as such empowered the Resources and Development Committee with authority to establish Navajo Nation policy with respect to the optimum utilization of all Navajo Nation resources and to protect the rights, interests, sacred sites and freedoms of the Navajo Nation and People to such resources, now and for future generations. 2 N.N.C. §§ 500 (A) and (C)(1).
- B. The Navajo Nation established the Naabik'iyáti' Committee as a Navajo Nation Council standing committee and as such empowered Naabik'iyáti' Committee to coordinate all federal programs and to assist and coordinate all requests for information, appearances and testimony relating to federal legislation impacting the Navajo Nation. 2 N.N.C. §§ 700 (A), 701 (A) (4), 701(A) (6).
- C. The Navajo Nation has a government-to-government relationship with the United States of America, Treaty of 1868, Aug. 12, 1868, 15 Stat. 667.
- D. H.R. 2181 and S. 1079, are identical pieces of legislation in the House and Senate of the United States 116th Congress, 1st Session, that are intended to enact the Chaco Cultural Heritage Area Protection Act of 2019 ("Act") for the purpose of protecting archeological, sacred, and historic resources located throughout the Greater Chaco region, which spans the States of New Mexico, Arizona, Utah, and Colorado. H.R. 2181 attached as Exhibit A. S. 1079 attached as Exhibit B.

- E. H.R. 2181 was introduced by a New Mexico delegation of Congressman Luján, with Congresswomen Torres-Small and Haaland and Congressman Grijalva; S. 1079 was introduced by New Mexico Senators Udall and Heinrich.
- F. While the Act recognizes archaeological, sacred, and historic resources located throughout the Greater Chaco region, spanning the States of New Mexico, Arizona, Utah and Colorado, the Navajo Nation's cultural connection and affiliation to the Greater Chaco Canyon area is omitted and the role of Chaco Canyon in Navajo life and ceremony is ignored.
- G. The Act notes that many Pueblos and Indian Tribes claim cultural affiliation with the Chacoan people, but does not recognize the Navajo Nation even though the greater part of the "Chacoan World" is within the boundaries of the Navajo Nation reservation and aboriginal territory, primarily in the Eastern Navajo Agency.
- The Act does not include any plans to protect sites other than Н. Chacoan sites even though there are literally hundreds, if not thousands, of historic and contemporary places within the proposed 10-mile buffer zone where traditional ceremonies have taken place; where traditional offerings are made (sacred places, such as springs, rock formations); where sacred and herbal medicines and foods are collected by Navajo people. The use of these sacred places, plants and water resources can be traced through the teachings and traditions that came from the Chacoans who became certain Navajo clans. See Report by Navajo Nation Heritage Historic Preservation Department attached as Exhibit C.
- I. The Act does not recognize Navajo ceremonial and cultural traditions even though there are many present-day Navajo Holy Way (Diyin k'ehgo) ceremonies that can trace a part of their origins to Chaco Canyon or Chacoan Outliers. These ceremonies include: 'Atsájí (Eagle Way) Diné biníłchi'jí (Navajo Wind Way) Dziłk'ijí (Mountain Top Way) Na'at'oyee (Shooting Way) Tóee (Water Way) Tł'ééjí (Night Way) Anaa'jí (Enemy Way). Exhibit C.

- The Navajo Nation has been an exemplary steward of the cultural J. resources throughout Navajo lands, including the area around Chaco Canyon, and has a history of working to protect archaeological, sacred, and historic resources located in the Greater Chaco region. For example, between 1992 and 2014, the Navajo Nation Historic Preservation Department had a Chaco Protection Sites Program whose primary objective was to oversee Chaco Protection Sites on Navajo land. The Program was authorized by Congress pursuant to P.L. 96-550 which identified thirty-nine (39) Chaco "great houses" with more than half of such "great houses" located on Navajo lands. The remainder of the "great houses" are spread amongst U.S. Forest Service (USFS), Bureau of Land Management (BLM), State of New Mexico, and private lands. Exhibit C.
- K. The Chaco Protection Sites Program was administered through a cooperative agreement with the National Park Service (NPS) wherein the Navajo Nation and the NPS both agreed to "coordinate and mutually assist in protection and resource management actions" within the Chacoan Canyon NPS unit and on Navajo lands and to comply with all applicable Federal and Tribal laws in the preservation of historic and prehistoric sites. Exhibit C.
- L. The Bureau of Indian Affairs (BIA) and BLM are bound by the National Historic Preservation Act (1966, as amended) to identify and manage cultural resources within their jurisdictions and on federal lands, the BIA (for Individual Indian Allotments) and the BLM are required to consult with the Navajo Nation on any effects of mineral extraction activities on cultural resources. Exhibit C.
- M. The Act's restrictions on extraction operations within the ten mile buffer will have a severe negative economic impact on Navajos owning allotted lands within the buffer zone whose livelihood is derived from royalty payments for oil and gas development on their individually-owned lands.
- N. While the Act says it will not affect the mineral rights of an allottee, it will not allow the people to capitalize on their resources because they will not be able to transport the

resources out. The Navajo Nation and the people should be compensated for the loss of opportunity.

- O. All the needed improvements for the Navajo communities are ruled out in advance. Which will make it harder to serve the Navajo people and provide a better quality of life.
- P. Navajo Nation local governments in and near the Act's impact area, i.e., Huerfano Chapter, Lake Valley Chapter, Nageezi Chapter, Pueblo Pintado Chapter, White Rock Local Government, and Eastern Navajo Agency Council, all fear the severe negative economic consequences to their Navajo members livelihood, sustainability and well-being that will be imposed on their communities by the Act's 10 mile buffer zone; and have passed resolutions, attached as Exhibit D, imploring that the buffer zone to be reduced to five (5) miles.
- Q. A data page from the Federal Indian Minerals Office is attached as **Exhibit E**.
- R. The Federal Indian Minerals Office has supplied the figures on the number of allottees who are affected by the 10 mile buffer zone and the proposed 5 mile buffer zone. See Exhibit E.
- S. HR-1158, The Consolidated Appropriations Act 2020; PL116-93 approved funding for \$1 million dollars for a Cultural Resources Study within the proposed 10-mile buffer zone. The Navajo Nation requests the Department of Interior to allocate the majority of this funding for a Navajo cultural resources study as this proposed 10-mile buffer is entirely within Navajo Nation lands and jurisdiction. The Navajo Nation also requests BLM to provide an updated map of the proposed 10-mile and 5-mile buffer zone compromise, outlining the number of Navajo allottees that will be affected by this buffer zones. The Navajo Nation also requests the Department of Interior to complete official Tribal Consultation on the Navajo Nation.
- T. The Navajo Nation finds it in the best long-term interests of the Navajo People and their communities that the Act's buffer

zone surrounding the Chaco Culture National Historical Park be reduced to 5 miles.

U. The Navajo Nation finds it in the best long-term interests of the Navajo People and their communities to oppose the Act until such time as the buffer zone surrounding the Chaco Culture National Historical Park is reduced to 5 miles.

#### NOW THEREFORE, BE IT RESOLVED:

- A. The Navajo Nation respectfully opposes "The Chaco Heritage Area Protection Act Of 2019", H.R. 2181 and S. 1079, until such time as the buffer zone surrounding Chaco Cultural National Historical Park is reduced to five (5) miles.
- B. The Navajo Nation respectfully requests the United States Congress and Senate, specifically Congressmen Luján and Grijalva, Congresswomen Torres-Small and Haaland, and Senators Udall and Heinrich, to take all steps necessary to amend H.R. 2181 AND S. 1079 so that the buffer zone surrounding Chaco Cultural National Historical Park is reduced to five (5) miles.

#### CERTIFICATION

I, hereby certify that the foregoing resolution was duly considered by the Naabik'iyáti' Committee of the 24<sup>th</sup> Navajo Nation Council at a duly called meeting in Window Rock, Navajo Nation (Arizona), at which a quorum was present and that the same was passed by a vote of 18 in Favor, and 01 Opposed, on this 23<sup>rd</sup> day of January 2020.

4	lense" means any oil and gas lease for Federal
5	land—
6	(A) on which drilling operations have not
7	been commenced before the end of the primary
8	term of the applicable lease:
9	(B) that is not producing oil or gas in pay-
0	ing quantities; and
ı	(C) that is not subject to a valid coopera-
2	tive or unit plan of development or operation
3	certified by the Secretary to be necessary.
4	(2) FEDERAL LAND.—
5	(A) IN GENERAL.—The term "Federal
6	land" means—
7	(i) any Federal land or interest in
8	Federal land that is within the boundaries
9	of the Chaco Cultural Heritage Withdrawal
2()	Area, as depicted on the Map; and
2 1	(ii) any land or interest in land lo-
22	cated within the boundaries of the Chaco
23	Cultural Heritage Withdrawal Area, as de-
24	picted on the Map, that is acquired by the
2.5	Rederal Government after the date of en-
14	notingent of this Act

l	(B) Exclusion.—The term "Federal
2	land" does not include trust land (as defined in
3	section 3765 of title 38, United States Code).
4	(3) Mar —The term "Map" means the map
5	prepared by the Bureau of Land Mahagement enti-
6	tled "Chaco Cultural Heritage Withdrawal Area"
7	and dated April 2, 2019.
8	(4) Secretary.—The term "Secretary" means
9	the Secretary of the Interior.
10	SEC. 4. WITHDRAWAL OF CERTAIN FEDERAL LAND IN THE
1 1	STATE OF NEW MEXICO.
12	(a) IN GENERAL.—Subject to any valid existing
13	rights, the Federal land is withdrawn from—
14	(1) all forms of entry, appropriation, and dis-
15	posal under the public land laws:
16	(2) location, entry, and patent under mining
17	laws; and
18	(3) operation of the mineral leasing, mineral
19	materials, and geothermal leasing laws.
20	(b) AVAILABILITY OF MAP —The Map shall be made
21	available for inspection at each appropriate office of the
22	Bureau of Land Management,
23	(c) Conveyance of Pederal Land to Indian
24	TRIBES.—Notwithstanding subsection (a), the Secretary
25	may canyey the Federal land to, or exchange the Federal

1	land with, an Indian Tribe in accordance with a resource
2	management plan that is approved as of the date of enact-
3	ment of this Act, as subsequently developed, amended, or
-1	revised in accordance with the Federal Land Policy and
5	Management Act of 1976 (43 U.S.C. 1701 et seq.) and
6	any other applicable law.
7	SEC. 5. OIL AND GAS LEASE MANAGEMENT.
8	(a) Termination of Non-Producing Leases.—A
9	covered lease—
10	(1) shall automatically terminate by operation
11	of law pursuant to section 17(e) of the Mineral
12	Leasing Act (30 U.S.C. 226(e)) and subpart 3108
13	of title 43, Code of Federal Regulations (or suc-
14	cessor regulations); and
15	(2) may not be extended by the Secretary.
16	(b) Withdrawal of Terminated, Relinquished,
17	OR ACQUIRED LEASES.—Any portion of the Federal land
18	subject to a covered lease terminated under subsection (a)
19	or otherwise or relinquished or acquired by the United
20	States on or after the date of enactment of this Act is
21	withdrawn from—
22	(1) all forms of entry, appropriation, and dis-
23	posal under the public land laws;
24	(2) location, entry, and patent undermining
25	laws; and

1	(3) operation of the mineral leasing, mineral
2	materials, and geothermal leasing laws.
3	SEC. 6. EFFECT.
4	Nothing in this Act—
5	(1) affects the mineral rights of an Indian
6	Tribe or member of an Indian Tribe to trust land
7	or allotment land; or
8	(2) precludes improvements to, or rights-of-way
ŋ	for water, power, or road development on, the Fed-
10	eral land to assist communities adjacent to or in the
11	vicinity of the Federal land.

#### Navajos, Anasazi, Chaco Canyon, and NNC Legislation No. 0366-19

Richard M Begay, Dep't Manager/THPO
Navajo Nation Heritage and Historic Preservation Department
December 18, 2019

The Navajo Nation Council Resources and Development Committee (RDC) is considering Legislation No. 0366-19 entitled "An Action Relating to Resources and Development Naabik'íyáti' Committees: Opposing H.R. 2181 and S. 1079, 'The Chaco Heritage Area Protection Act of 2019', until such time as the Buffer zone surround Chaco Cultural National Historic Park is reduced to five (5) Miles". The sponsor, Delegate Mark A. Freeland (Becenti, Lake Valley, Nahodishgish, Standing Rock, Whiterock, Huerfano, Nageezi, and Crownpoint), has requested comments from the Navajo Nation Heritage and Historic Preservation Department (NNHHPD) regarding his legislation.

Navajo Nation President Jonathon Nez supports the 10-Mile Buffer Zone, and I cannot disregard his decision. However, there are some important omissions in the proposed congressional legislation H.R. 2181. For instance, the legislation uses the terms "Pueblos and Indian Tribes" and does not specifically identify the Navajo Nation, although the greater part of the "Chacoan World" is within the Navajo Nation, mostly in the Eastern Navajo Agency. The information below is meant to inform the Navajo Nation Council, the RDC, and others about the importance of Chaco Canyon to the Navajo People, which is not evident in H.R. 2181.

#### **Brief Background**

NNHHPD has worked hard to protect Chacoan places before the present-day efforts to establish a buffer zone around Chaco Culture National Historical Park. I also hope Delegate Freeland uses the information to strengthen his proposed legislation before the Navajo Nation Council.

Chaco Canyon, with all its associated outlying places, and the people who lived there, the Anasazi (Anaasází)², are integral to the formation of the Navajo People. Navajo people have an enormous amount of oral history about Chaco Canyon. Our oral and ceremonial traditions tell us about how the Chacoan system developed, who lived there, about the architecture, the fields of corn, squash, and other corps, about the springs, and so on. These histories recount the cultural, social, and ceremonial traditions at Chaco Canyon and elsewhere. The people and the teachings that came from Pueblo Bonito (Tsé Bíyah 'Anii'ahí), Pueblo Alto (Nááhwilbiihi Bikin), Kin Ya'a Ruin (Kin Yaa'á), Shabik'eschee Village (Tsé Bik'e'eschí), and other Chacoan places are part of the everyday life of Navajo People today.

<sup>&</sup>lt;sup>1</sup> There is much public debate about the meaning of the word "Anasazi." The base Navajo word is Anasazi, or simply naasazi. The word has multiple meanings in multiple contexts. Here I use Anasazi to refer to the "prehistoric" inhabitants of the Southwest. The Navajo word is also used to refer to Paleo-Indian, Archaic, Basketmaker to PI-PIV communities, and other prehistoric populations in the Southwest, such as the Hohokam Other terms currently in use for the Anasazi include Ancestral People, or Ancestral Pueblo. The Navajo Nation objects to the term Ancestral Pueblo because it erases the Navajo affiliation with the Anasazi as demonstrated below.

#### The Former Chaco Protection Sites Program

Between 1992 and 2014; the Navajo Nation Historic Preservation Department? had a Chaco Protection Sites Program. The program was authorized by Congress (P.L. 96-550) and administered through a cooperative agreement with National Park Service (NPS). The primary objective of the program was to oversee Chaco Protection Sites on Navajo land. The legislation identified 39 Chaco "great houses," and more than half of them are on Navajo lands. The remainder are on U.S. Forest Service (USFS), Bureau of Land Management (BLM), State of New Mexico, and private lands. In that agreement, the Navajo Nation and the NPS agreed to "coordinate and mutually assist in protection and resource management actions" both within the Chacoan Canyon NPS unit and on Navajo lands. Both parties also agreed to comply with all applicable Federal and Tribal laws in the preservation of historic and prehistoric sites.

Some notable projects include work at Big House at Manuelito Canyon, Newcomb/Cemetery Ridge (prehistoric fields and irrigation system), Navajo rock art in Chaco Canyon, and other places within the Chaco Canyon and Aztec National Monument park units. The Chaco Protection Sites Program sought to:

- Protect sovereignty and preserve material remains of Navajo past, present, and future
- Correct 100+ years of misinformation published/taught by anthropologists and archaeologists about Navajo history in Southwest
- Strengthen Navajo ties to the landscape
- Encourage respect for Navajo traditional history (songs and ceremonies)

The Navajo Nation has actively participated in the protection and management of the remains of the Anasazi, the ancestors of certain Navajo clans<sup>3</sup>. Aside from the Chaco Program, NNHHPD has worked closely with the NPS, as well as other affiliated tribes, to repatriate and rebury human remains and associated funerary items within park lands. Reburial activities have taken place at Chaco Canyon, Aztec Ruins National Monument, and Mesa Verde National Park, and other park units in the past two decades. We have worked cooperatively with NPS and other tribes to ensure the remains and the places of the ancestors are protected and treated with respect.

Although the Chaco Protection Sites Program no longer exists at NNHHPD, we have used the information collected by that program to continue to protect Chacoan sites on Navajo lands. And just as important, we work with local Navajo residents to protect their cultural heritage, including Anasazi sites.

In 2017 and 2018, NNHHPD approached NPS to reinstate the Chaco Protection Sites Program, but there was no interest from NPS. We will continue to pursue funding for it.

<sup>&</sup>lt;sup>2</sup> The Historic Preservation Department and the Archaeology Department merged in 2016, becoming the Heritage and Historic Preservation Department.

<sup>&</sup>lt;sup>3</sup> The claim of Anasazi ancestry is not exclusive. The Pueblo Indians of New Mexico and the Hopi Tribe of Arizona claim descendancy from the Anasazi, and the Navajo Nation does not dispute their claims of affiliation.

#### **Ceremonial History**

The most prominent story about Chaco Canyon is about Nááhwiilbiihí, the Gambler. In Navajo oral history he enslaved the Chacoan people and forced them to build the structures at Chaco Canyon. The Gambler may be a person or a group of people. In any case, the Holy People, Diyin Dine'é, groomed a Challenger to defeat him. The story of the Challenger goes as far west as Rainbow Bridge, north of Navajo Mountain. The teachings about the Gambler played an important role in the public discussions about the Navajo Nation's venture into casinos more than 20 years ago.

Many present-day Navajo Holy Way (*Diyin k'ehgo*) ceremonies can trace a part of their origins to Chaco Canyon or Chacoan Outliers. These ceremonies include:

- 'Atsájí (Eagle Way)
- Dinė binilchi 'ji (Navajo Wind Way)
- Dzilk'iji (Mountain Top Way)
- Na'at'ovee (Shooting Way)
- Toee (Water Way)
- Tl'ééjí (Night Way)
- Anaa'ji (Enemy Way)

Other ceremonies that are no longer practiced, or only have minor rituals, such as Ajilee (Prostitution Way), 'lich'ahji (Moth/Frenzy Way), Hoozhónee (Beauty Way), Maii'ji (Coyote Way), and Yóee (Bead Way), also reference Chacoan places.

Unfortunately, H.R. 2181 does not mention any plans to protect sites other than Chacoan sites. There are literally hundreds, if not thousands, of historic and contemporary places within the proposed 10-mile buffer zone where traditional Navajo ceremonies have taken place. Many people do not want these areas disturbed. Additionally, there are places where traditional offerings are made (sacred places such as springs, rock formations), and where sacred and herbal medicines and foods are collected. Other places include eagle gathering places, 'ood, and antelope traps/corrals, niidziin. The use of these sacred places and plant and water resources can be traced through the teachings and traditions that came from the Chacoan places, from Chacoans who became certain Navajo clans.

An example of a nonstructural place that prominently figures in Navajo tradition is Fajada Butte, *Tsé Diyili*. It is an important place in several ceremonies, especially the Water Way, Night Way, and Mountain Top Way ceremonies. It is the home of *'Asdzáán Anilghánii* (Poverty woman/Woman who will shrivel you up), and the butte should not be climbed for recreational purposes. In the early 1990s, I went on top of Fajada Butte with the late Alfred Yazzie, Dabney Ford, NPS archeologist, Klara Kelley (private consultant), and others to leave offerings. We sang songs and uttered prayers. We talked about the Sun Dagger<sup>4</sup>, and its role in Navajo ceremonialism and cosmology.

Hózhóójí (Beauty Way, but known as Blessingway, to distinguish it from Hoozhónee, Beauty Way, a Holy Way Ceremony) tells the story of the Navajo from the beginning, hodeeyáádáá, and small versions of it are incorporated into all Navajo ceremonies. The Blessingway narrative integrates the totality of origins of Navajo clans and ceremonies. It includes the story of creation of the earth, and the

<sup>4</sup> The Sun Dagger is a rock image related to the tracking of the Sun's seasonal movements.

peopling of the Southwest. It tells us how to use the plants, the water, the rocks, the trees, the soil/dirt, and so forth. Chaco Canyon is part of the story of our people, and it is a vital part of the Blessingway ceremony. The role of Chaco Canyon in Navajo life and ceremony is not evident in H.R. 2181.

#### Clan Origins

The most prominent clan with origins in Chaco communities is Kinyaa'áanii (Towering House People). They originated from Kinyaa'á, a Chacoan Outlier near present-day Crownpoint, NM. The clan has three well-known subdivisions: Dził t'ahnii Kinyaa'áanii (Mountainside People Kinyaa'áanii), Dootl'izhii Dine'é Kinyaa'áanii (Turquoise People Kinyaa'áanii), and Tázhii Dine'é Kinyaa'áanii (Turkey People Kinyaa'áanii). There may be other subdivisions of Kinyaa'áanii as well. Other Navajo clans that come from Chacoan sites include:

- Áshiihi (Salt Clan), Pueblo Pintado, and Wijiji
- Hashk'aa hadzohi (Yucca Hill People), Pueblo Pintado, and Chaco Canyon
- Kin tichii'li (Red House People), Kinlichee Pueblo (Arizona)
- Ma'ii deeshgiizhnii (Coyote Pass People/Jemez Pueblo), Pueblo Pintado
- · Ta'neeszahnii (Dark Water Plant), Salmon Ruins
- Tó 'aheedliinii (People of the Confluence), Confluence of the San Juan and Los Pinos Rivers, and Aztec Ruin
- Tt'izi tani (Many Goats), Salmon Ruins
- Tł'ááschl'i (Red Cheek People), Chaco Canyon and surrounding area
- Tsin sikaadnii (Tree Grove People), Casamero Ruins
- Yoo'ó dine'é (Bead People), Chaco Canyon and surrounding area

There may be other Navajo clans that have origins at Chacoan places. The origin places of many Navajo clans are not documented in the existing literature. Numerous Navajo people living in the Eastern Agency are from the clans that originated at the places mentioned above. They are concerned about the management of Chacoan sites and should be included in the discussions related to any efforts to establish a buffer zone around Chaco Canyon.

#### Conclusion

The Navajo Nation has been a good steward of the cultural resources across Navajo Nation lands, including the area around Chaco Canyon. NNHHPD, as well as other Navajo Nation programs, the Bureau of Indian Affairs (BIA), the BLM and others are working cooperatively on the management and protection of cultural resources in the Environmental Impact Statement (EIS) for the proposed Farmington-Mancos-Gallup Resource Management Plan Amendment (RMPA). The RMPA is for the lands in the greater Chaco Canyon area.

Additionally, we work closely with the BLM in Farmington on all gas/oil lease sales and Applications for Permit to Drill (APD) to ensure cultural resources are inventoried and protected. This activity is coordinated with the BIA. The Navajo Nation has authority over Navajo Nation lands pursuant to the Navajo Cultural Resources Protection Act (CMY-19-88), and also through a P.L. 93-638 contract

from the BIA for archaeological services, and as a designated Tribal Historic Preservation Office (THPO) by the NPS's Tribal Historic Preservation Program. On federal lands, the BIA (for individual Indian Allotments) and the BLM are required to consult with the Navajo Nation on any effects of mineral extraction activities on cultural resources. The BIA and the BLM are bound by the National Historic Preservation Act (1966; as amended), to identify and manage cultural resources within their jurisdictions. Other federal laws protect cultural resources include the Archaeological Resources Protection Act (ARPA, 1979), as well as numerous other legislations that govern Chacoan sites.

It is important that any legislation that will affect Navajo land-use acknowledge and respect Navajo ceremonial and cultural traditions. I would urge Delegate Freeland to include such wording in the proposed Legislation No. 0366-19, and also to advocate for appropriate wording in H.R. 2181.

- 8. Lake Valley Chapter community understands the Navajo Allotment Land Owners expressed their concerns that the Chaco Cultural Heritage Protection Act of 2019 will Infringe on their royalty payments they are receiving from oil and gas development on their allotment lands. The Navajo communities, including the Navajo Reservation has always been in a very depressed economic state and such development of natural resources benefit Navajo families by improving their livelihood; and
- 9. Lake Valley Chapter community understands the Navajo Allotment Land Owners are concerned that self-serving special interest organizations are violating the rights of Navajo Allotment Land Owners. That such publicized demonstrations and meetings by these special interest an outside groups have over shadowed the Navajo Allotment Land Owners whom currently benefitting from oil and gas development on their allotment lands; and
- Lake Valley Chapter community understands the Navajo Allotment Land Owners do not share opinions of environmentalists
  voicing their objections on natural resources developments. These over publicized objections by the environmentalists have
  drowned out and overshadowed Navajo Allotment Land Owners Rights; and
- 11. Lake Valley Chapter community understands the Navajo Allotment Land Owners are truly the impacted people of the Chaco area. These lands were patented and allotted to the Navajo people in New Mexico and handed down through many generations. These lands were given in exchange for land taken by the U.S. Government in exchange for difficult to lease, develop, or excavate their lands; and
- 12. Lake Valley Chapter community members are also Navajo Allotment Landowners near or within Chaco Canyon locations therefore, Lake Valley Chapter community adopted Resolution No. LVC-OCT20-047 on October 20, 2019 to accept & approve support request to consider amending the proposed Chaco Cultural Heritage Protection Act of 2019 to have the proposed ten (10) miles Buffer Zone reduced to five (5) miles Buffer Zone for oil & gas development on the Navajo Allotments Land.

Navajo Allotment Land Owners have met with Cal Curley, Staff to U.S. Senator Tom Udall and Jim Dumont, Staff to U.S. Senator Martin Heinrich at Nageezi Chapter to express their concerns on the proposed Chaco Cultural Heritage Protection Act, but Navajo Allotment Land Owners believe their concerns are not being conveyed to U.S. Senator Tom Udall and U.S. Senator Martin Heinrich; and
- 7. Navajo Allotment Land Owners expressed their concerns that the Chaco Cultural Heritage Area Protection Act of 2019 will infringe on their royalty payments they are receiving from oil and gas development on their allotment lands. Navajo communities, including the Navajo Reservation has always been in a very depressed economic state and such development of natural resources benefit Navajo families by improving their livelihood; and
- 8. Navajo Allotment Land Owners are concerned that self-serving special interest organizations are violating the rights of Navajo Allotment Land Owners. That such publicized demonstrations and meetings by these special interest and outside groups have over shadowed the Navajo Allotment Land Owners whom currently benefitting from oil and gas development on their allotment lands; and
- 9. Navajo Allotment Land Owners do not share opinions of environmentalists voicing their objections on natural resources developments. These over publicized objections by the environmentalists have drowned out and overshadowed Navajo Allotment Land Owners Rights; and
- 10. Navajo Allotment Land Owners are truly the impacted people of the Chaco area. These lands were patented and allotted to the Navajo People in New Mexico and handed down through many generations. These lands were given in exchange for land taken by the U.S. Government in exchange for citizenships. Therefore, as Navajo People being land owners, they have the right to lease, develop, or excavate their lands.

### **BACKGROUND**

The Department of the Interior established the Federal Indian Minerals Office (FIMO) to provide and improve Indian Trust services to individual Indian beneficiaries in the management of their oil and gas mineral resources. The FIMO office has received multiple concerns and complaints regarding the proposed ten-mile leasing buffer zone around Chaco Culture National Historical Park (Chaco).

FIMO currently plans to move forward with a proposed lease sale for Navajo Indian allotments. Pending legislation (H.R. 2181) could indirectly impact the lease sale for the Navajo Indian Allottees.

Legislative (H.R. 2181) is currently pending, as currently written, would prevent certain federal minerals from being leased in the Chaco area. Section 3 of the pending legislation excludes Indian lands from this leasing prohibition. However, based on the geology and land status of the Navajo Eastern Agency, FIMO believes there potentially could be an indirect impact on any lease sales for Navajo Indian allotments. For example, the Mancos Shale reservoir lies south of Counselor, Huerfano and Nageezi Chapters and north of Chaco Park. To maximize full extraction of the product, a horizontal lateral crossing 3-4 miles subsurface may be required. Due to the cross jurisdictional land status in Navajo Eastern Agency, a proposed horizontal lateral could need to cross federal land. Thus, a lease sale of allotment minerals might correlate with leasing federal minerals in a reservoir area. An inability to lease adjacent federal minerals might impede a company from maximizing production from certain wells or laterals on allotment minerals. FIMO will continue to act pursuant to applicable federal statutes and regulations in evaluating any lease offers and approving any leases. See 25 U.S.C. §§ 396, 396d; 25 U.S.C. § 2102; 25 C.F.R. part 225.

### DATA

The following information was pulled and analyzed to provide a better understanding of how this pending legislation could indirectly impact the development of Oil & Gas in the Eastern Navajo Agency. Specifically, FIMO was asked to provide the following information:

1. How many oil and gas leases are potentially impacted? How much money is generated from these leases? When were they last leased? What is the % of Tribal ownership, if any, in the individual allotments in the park and buffer zone?

### 10 Mile Buffer - Leased Allotments

- There are currently 53 allotments that are leased within a 10 mile buffer of Chaco
- The 53 leased allotments generates an average of \$6.2 million a year in royalties for the allottees.
- There are approximately 5,462 allottees that received the amount stated above based on their individual allotment percentage.
- The leased allotment covers approximately 8,479.49 acres of allotted lands

• The Navajo Nation has percentage interest in 9 leased allotments.

### 10 Mile Buffer - Unleased Allotments

- There are currently 418 allotments that are unleased within a 10 mile buffer of Chaco
- There are approximately 16,615 allottees associated with these allotments.
- The unleased allotment covers approximately 66,575.82 acres of allotted lands
- The Navajo Nation has percentage interest in 288 unleased allotments.
  - a. 6 allotments will be transferring from Navajo Indian Allotted to Navajo Nation Tribal Trust
  - b. NN has 50 % interest in 86 allotments.
  - c. NN has 25%-49% interest in 133 allotments.
  - d. NN has 1%-24% interest in 63 allotments.

### 2. What would a 5 mile buffer zone look like?

### 5 Mile Buffer - Unleased Allotments

- There are currently 51 allotments that are unleased within a 5 mile buffer of Chaco
- There are approximately 2,111 allottees associated with these allotments.
- The unleased allotment covers approximately 8,157.47 acres of allotted lands
- The Navajo Nation has percentage interest in 38 unleased allotments.
  - a. NN has 50 % interest in 4 allotments.
  - b. NN has 25%-49% interest in 18 allotments.
  - c. NN has 1%-24% interest in 16 allotments.

The Navajo Nation has percentage interest in 9 leased allotments.

### 10 Mile Buffer - Unleased Allotments

- There are currently 418 allotments that are unleased within a 10 mile buffer of Chaco
- There are approximately 16,615 allottees associated with these allotments.
- The unleased allotment covers approximately 66,575.82 acres of allotted lands

RESOLUTION OF PUEBLO PINTADO CHAPTER PPC-02-2023- () 22.

PUEBLO PINTADO CHAPTER SUPPORTS AND APPROVE THE RESCINDING THE POSITION OF A FIVE (5) MILE BUFFER ZONE AROUND CHACO CANYON PARK TO A ZERO (0) NO BUFFER ZONE AROUND CHACO CANYON PARK AS IT WAS INDICATED IN THE PROPOSED CHACO HERTIAGE PROTECTION ACT OF 2019 BY U.S. INTERIOR SECRETARIES DEB HAALAND.

### WHEREAS:

- Pursuant to 26 N.N.C. Section 3(A) the Pueblo Pintado Chapter is a duly recognized certified Chapter of the Navajo Nation Government as stated at 11 N.N.C., Part 1 Section 10; and
- Pursuant to 26 N.N.C. Section 1(B) the Pueblo Pintado Chapter is vested with the authority to review all
  matters affecting the community and make appropriate corrections when necessary, and make a
  recommendation to the Navaio Nation and other local agencies for appropriate actions; and
- 3. Pueblo Pintado Chapter has been battling the Proposed Chaco Heritage Protection Act of 2019 by U.S. Interior Secretary Deb Haaland and Assistant Secretary David Bernhardt because it will have a definite negative impact on Navajo allotment owners living in this northwest region of State of New Mexico.
- 4. Pueblo Pintado Chapter and the community has always supported the development of oil and gas on their lands because it provides income for Navajo families so they can support their families and pay for the education of their children.
- 5. Pueblo Pintado Chapter did attempt to a concession of a five (5) mile buffer zone as an attempt to negotiate a resolution but U.S. Department of interior and Congressional delegation of New Mexico forges ahead without any change of heart in their attempts to place a buffer zone in and around the Chaco National Park.
- 6. Pueblo Pintado Chapter was further notified that, in addition to a Chaco buffer zone another attempts to withdraw approximately 352,000 acres of public land was being proposed to be withdrawn by U.S Department of Interior. These efforts of public land withdrawal has been expedited by Interior Department via Bureau of Land Management offices in Farmington and Albuquerque, during a COVID 19 pandemic period, when Navajo land users were not allowed to meet face to face in so-called a number of public hearings.
- 7. Navajo people have been land users for Checkerboard land region in northwest New Mexico since at least 1868 when the Navajo and U.S. Government Treaty was signed. Even prior to 1868, Navajo people were forced off this region on The Long Walk to Fort Sumner imprisonment camp. The Navajo people returned home to this region after a treaty was reached.
- 8. Navajo people has traditional respected the Chaco Canyon National Park ruins located in the canyons, sett behind by the pueblos, who lived on this location and have moved on. Historically Navajo people have transcended down from Alaska, Canada and northwest United States and have left markings and ruins in those regions, but Navajos do not force any buffer zones in those regions, in the midst of tribes now-occupying those locations.

- 9. Navajo people living in the in the Checkerboard region strongly realizes that there are no buffer zones being established around any national parks in United States and questions the reason and goals of Secretary of Interior Deb Haaland. A conflict of interest obvious exists of Interior Secretary Deb Haaland, when she started this dispute via an attempt of a Congressional Bill when she was a Congresswoman and a member of the pueblo tribe
- 10. Puoblo Pintado Chapter takes the position that the currently boundary fence line safeguarding the Chaco Canyon is sufficient and has been in place for at least 120 years, even though Navalo people were forced out of these canyons. Furthermore, that are sufficient laws already on the Federal Oil and Gas Regulations to protect any findings of bones and potteries when found or uncovered.
- 11. Chaco Canyon National Park even fenced in six (6) Navajo Allotment lands as part of the existing Chaco Canyon National Park boundary. Navajo Allotment owners of these six (6) have never been compensated for use of these allotments, by the Park Service as the National Park continue to collect revenues today.
- 12. Navajo people truly appreciate the positions of the former 24th Navajo Nation Council, Navajo Nation Resource and Development Committee and Former Navajo Nation President Jonathan Nez in their support of No Buffer zone and adamantly objects to the withdrawal of 352,000 acres public lands in the checkerboard region of northwest New Mexico, A letter of those objections was made via Navajo Council resolutions and a letter by formet Navajo Nation President Jonathan Nex to Joe Biden, President of United

### NOW THEREFORE BE IT RESOLVED THAT

1. Purble Pintado Chapter hereby RESCINDS the position of a five (5) buffer zone TO a zero (0) buffer zone, no buffer zone around the Chapo Canyon National Park, as it WAS indicated in the Proposed Chaeo Heritage Protection Act of 2019 by U.S. Interior Scoretary Deb Hauland.

### CERTIFICATION

WE HEREBY CERTIFY THAT THE FOREGOING RESOLUTION was duly presented and discussed at duly-called meeting of Pueblo Pintado, Navajo Nation, (Now Mexico), at which a quorum was present, motioned by Annie Etcitty, accounded by Ceefflia Chee, was voted on with 10 in favor, 0 opposed and 1 abstrained, this 13th day of March 2023.

WHLC 2-22-033 Whitehorse Lake Chapter is in opposition to the 10-mile buffer zone around the Chaco Culture National Historical Park per the request of the All-Pueblo Council of Governors and as supported by Secretary Dab Holland. This buffer zone will have a negative economic impact on Navajos who own allotted lands within the buffer one which will seriously affect royalty payments currently received from oil and gas development on their lands.

### WHEREAS:

- Pursuant to 26 N.N.C. Section 3 (A) Whitehorse Lake Chapter is a duly recognized certified chapter of the Navajo Nation Government as listed at 11 N.N.C. part 1, section 10; AND
- Pursuant to 26 N.N.C. section 1 (B) is vested with the authority to review all matters affecting the
  community and to make appropriate corrections when necessary and make recommendations to the
  Navajo Nation and other local agencies for appropriate action; AND
- The Whitehorse Lake Chapter is a duly certified Local Government entity of the Navajo Nation with the
  responsibility to promote and protect the interest and welfare of its community people pursuant to Title
  11, section 4001 (a) of the Navajo Tribal Code; AND
- 4. Whitehorse Lake Chapter has been informed of efforts by the All-Indian Pueblo Council and the Department of Interior to impose a buffer zone surrounding the Chaco Culture National Historical Park without the input of the Navajo people; AND
- 5. Navajo people who own allotted lands in the area affected by the proposed buffer zone have not been allowed to voice their objection to this devastating action; AND
- 6. Whitehorse Lake Chapter has been informed that the Navajo Nation President has written objection to this action by the Department of Interior; AND
- Numerous Navajos who have owned for many years allotments in the affected area will be overtly
  impacted negatively in their dependence on income realized from royalties in the area proposed for the
  buffer zone; AND
- 8. Navajos have been dealing with overbearing poverty for too years and this action will only make the poverty situation greater and more devastating for our children, elderly and disabled.

### THEREFORE BE IT RESOLVED THAT

Whitehorse Lake Chapter strongly opposes the 10-mile buffer zone around the Chaco Culture National Historical Park action being contemplated by the All Indian Pueblo Council and supported by the Department of Interior Secretary Deb Holland as such devastating action will overtly negatively impact the income realized by Navajo allottees in the proposed buffer zone.

### **CERTIFICATION**

We certify that the foregoing resolution was duly considered by Whitehorse Lake Chapter at a duly called meeting in Whitehorse Lake, Navajo Nation at which a quorum of Chapter members was present and the same was passed by a vote of  $\underline{5}$  in favor  $\underline{0}$  opposed and  $\underline{1}$  abstained this 15th day of March, 2022.

### **RESOLUTION OF LAKE VALLEY CHAPTER**

RESCIND RESOLUTION #LVC-OCT20-047 (SUPPORT REQUEST TO CONSIDER AMENDING THE PROPOSED CHACO CULTURAL HERITAGE PROTECTION ACT OF 2019 TO HAVE THE PROPOSED 10-MILES BUFFER ZONE "REDUCED" TO 5-MILES BUFFER ZONE); BUT FURTHER REQUEST TO STRONGLY SUPPORT "NO BUFFER ZONE" THAT WILL AFFECT LAKE VALLEY COMMUNITY AS WELL AS THE NAVAJO ALLOTMENT LANDOWNERS INTERRUPTING THEIR FUTURE LAND STATUS RELATING TO BUFFER ZONES PLANNING.

### WHEREAS:

- 1. Lake Valley Chapter is a certified Navajo Nation Chapter Government, which was created pursuant to the Navajo Nation Council Resolution No. C-J25-55, is delegated governmental authority with respect to local matters consistent with Navajo laws, including customs, traditions, and fiscal matters; and
- 2. Lake Valley Chapter is empowered by the Navajo Nation Council to review all matters affecting the community to make favorable decisions in the best interest for the general health, safety and welfare of chapter membership through implementation solutions for economic development, cultural preservation, recreation, solid waste management, elderly care, quality housing, public safety, road maintenance; educational support for community students; and
- 3. Lake Valley Chapter communities understand that in pursuant to the Navajo Nation Code (NNC) Title 26, Local Governance Act, which allows chapters to make decisions over local matters. This authority in the long run all improve community decision-making by allowing committees to excel and flourish, enable Navajo leaders to lead toward a prosperous future, and improve the strength and sovereignty of the Navajo Nation; through adoption of this Act, chapters are compelled to govern with responsibility and accountability to the local citizens; and
- 4. Lake Valley Chapter community met on January 8, 2023 Planning Meeting to discuss and plan upcoming business items to be placed on the agenda. In previous support by the Eastern Navajo Council, it was recommended all Chapters to go with 5-mile Buffer Zone, not 10-miles. For this reason. Lake Valley Chapter supported the five (5)-mile Buffer Zone without realizing that it will affect the chapter community people residing within or near the area of identified buffer zone. Not all Eastern Navajo Chapters were in favor. It was report that the Secretary of the Interior Debra Haaland visited Chaco Canyon and went back to Washington, BC to favor/changed to 10-mile Buffer Zone initiative step in support of the Pueblo Indian Tribe surrounding the Chaco area. This is conflict of interest because Secretary Debra Haaland is a Laguna Pueblo Indian within that region. Nineteen (19) Tribes are in favor. The Navajo Nation President and Vice President needs to get Involved; maybe have another Town Hall meeting having majority of community people overturn it being together on one page. For this reason, Lake Valley established another resolution to overturn their previous approval of 5-miles Buffer Zone and go with NO BUFFER ZONE that will affect Lake Valley community people, especially the Navajo Allotment Landowners that will interrupt their future land status; and
- 5. Lake Valley Chapter community adopted Resolution No. LVC-FEB12-029 presented on February 12, 2023 to support strongly rescind 5-miles Buffer Zone initiative planning which is in the best interest of the community people of Lake Valley Chapter.

### NOW THEREFORE BE IT RESOLVED THAT:

Lake Valley Chapter of the Navajo Nation hereby approves to "RESCIND" Resolution #LYC-OCT20-047 (Support Request to Consider Amending the Proposed Chaco Cultural Heritage Protection Act of 2019 to have the Proposed 10-miles Buffer Zone reduced to 5-miles Buffer Zone; but further request to STRONGLY SUPPORT "NO BUFFER ZONE' THAT WILL AFFECT LAKE VALLEY COMMUNITY AS WELL AS THE NAVAJO ALLOTMENT LANDOWNERS INTERRUPTING THEIR FUTURE LAND STATUS RELATING TO BUFFER ZONES PLANNING.

### CERTIFICATION

WE HEREBY CERTIFY that the foregoing resolution was duly considered by the Lake Valley Chapter at a duly called chapter meeting at Lake Valley (New Mexico) Navajo Nation, at which a quorum was present and that same was passed by a vote of seven [7] in favors, zero (0) opposed and four (4) abstained on this 12th day of February 2023. # RESOLUTION OF NAGEEZI CHAPTER EASTERN AGENCY, DISTRICT 19 RESOLUTION # NC 23-032

RESCINDING THE POSITION OF A FIVE (5) MILE BUFFER ZONE AROUND CHACO CANYON PARK TO A ZERO (0) NO BUFFER ZONE AROUND CHACO CANYON PARK AS IT WAS INDICATED IN THE PROPOSED CHACO HERTIAGE PROTECTION ACT OF 2019 BY U.S. INTERIOR SECRETARIES DEB HAALAND AND DAVID BERNHARDT AND NOW SUPPORTED BY SENATOR BEN RAY LUJAN AND CONGRESSWOMAN TERESA LEGER FERNANDEZ BY PROPOSED CONGRESSIONAL BILLS.

### WHEREAS:

Pursuant to 26 N.N.C. 1(B), the Nageezi Chapter is delegated to the governmental authority to make decision over local matters consistent with Navajo Law, Custom and Tradition and under 11 N.N.C. Part 10 also delegated authority to make local decisions in the best interest and welfare of the community members; and,

Nageezi Chapter with the population of 2500 to 3000 residents, registered and non-registered, is made up of (09) sub-communities including and not limited to Nageezi, Lybrook, Twin Pines, Blanco, Kimbeto, Chaco Canyon, Escavada, Betoni Wash, Kinnadiz and Dzilth-na-o-dith-hle, being one of the largest land based Navajo Chapter in Eastern Navajo Agency of the Navajo Nation. There are approximately 30,000 Navajo Allotment owners in Checkerboard, northwest New Mexico; and,

Nageezi Chapter has been battling the Proposed Chaco Heritage Protection Act of 2019 by U.S. Interior Secretary Deb Haaland and Assistant Secretary David Bernhardt because it will have a definite negative impact on Navajo allotment owners living in this northwest region of State of New Mexico.

Nageezi Chapter and the community has always supported the development of oil and gas on their lands because it provide income for Navajo families so they can support their families and pay for the education of their children.

Nageezi Chapter did attempt to a concession of a five (5) mile buffer zone as an attempts to negotiate a resolution but U.S. Department of interior and Congressional delegation of New Mexico forges ahead without any change of heart in their attempts to place a buffer zone in and around the Chaco National park.

Nageezi Chapter was further notified that, in addition to the a Chaco buffer zone another attempt to withdraw approximately 352,000 acres of public land was being proposed to be withdrawn by U.S Department of Interior. This efforts of Public land withdrawal has been expedited by Interior Department via Bureau of Land Management offices in Farmington and Albuquerque, during a COVID 19 pandemic period, when Navajo land users were not allowed to meet face to face in so-called a numbers of Public hearings.

Navajo people have been land users for Checkerboard land region in northwest New Mexico since at least 1868 when the Navajo and U.S. Government Treaty was signed. Even prior to 1868, Navajo people were forced off this region on The Long Walk to Fort Sumner imprisonment camp. The Navajo people returned home to this region after a treaty was reached.

Navajo people has traditional respected the Chaco Canyon National Park ruins located in the canyons, left behind by the pueblos, who lived on this location and have moved on. Historically Navajo people have transcended down from Alaska, Canada and northwest United States and have left markings and ruins in those regions but Navajos do not force any buffer zones in those regions, in the midst of tribes now occupying those locations.

Navajo people living in the in the Checkerboard region strongly realizes that there are no buffer zones being established around any national parks in United States and questions the reason and goals of Secretary of Interior Deb Haaland. A conflict of interest obvious exists of Interior Secretary Deb Haaland, when she started this dispute via a attempts of a Congressional Bill when she was a Congresswoman and a member of the pueblo tribe.

Nageezi Chapter takes the position that the currently boundary fence line safeguarding the Chaco Canyon is sufficient and has been in place for at least 120 years, even though Navajo people were forced out of these canyons. Furthermore that are sufficient laws already on the Federal Oil and Gas Regulations to protect any findings of bones and potteries when found or uncovered.

Chaco Canyon National Park even fenced in six (6) Navajo Allotment lands as part of the existing Chaco Canyon National park boundary. Navajo Allotment owners of these six (6) have never been compensated for use of these allotments, by the Park Service as the National park continue to collect revenues today.

Navajo people truly appreciate the positions of the former 24<sup>th</sup> Navajo Nation Council, Navajo Nation Resource and Development Committee and Former Navajo Nation President Jonathan Nez in their support of No Buffer zone and adamantly objects to the withdrawal of 352,000 acres public lands in the checkerboard region of northwest New Mexico. A letter of these

objections were made via Navajo Council resolutions and a letter by former Navajo Nation President Jonathan Nez to Joe Biden, President of United States.

NOW THEREFORE BE IT RESOLVED THAT Nageezi Chapter hereby RESCINDS the position of a five (5) buffer zone TO a zero (0) buffer zone, no buffer zone around the Chaco Canyon National Park, as it WAS indicated in the Proposed Chaco Heritage Protection Act of 2019 by U.S. Interior Secretary Deb Haaland and David Bernhardt and now supported by Senator Ben Ray Lujan and Congresswoman Teresa Leger Fernandez by proposed Congressional Bills.
